

K-Love is my station of choice. With all the garbage on the tv and radio these days, it is very refreshing for me to be able to turn on the radio and not have to censor what I hear. I have heard K-Love playing as background music in grocery stores, thrift stores, restaurants, and even a probation office! There are plenty of other stations for folks who want to tune them in, but few as wholesome and friendly as K-Love. I believe it to be in the best interests of the general public to keep K-Love on the air. Conscientious people looking for family friendly programming will sorely miss K-Love should it be replaced. PLEASE do not change it.
